Class of works: I am writing in support of Class #1 (Copy-Protected CDs):
Sound recordings released on compact disc ("CDs") that are protected by
technological protection measures that malfunction so as to prevent access on
certain playback devices.

Summary:

Disc name: MJ

This CD skips in every CD-ROM drive I have tried, and I've tried many. It will
not play in my car CD player, either.

It's not a manufacturing flaw in the disc; it plays fine in regular (stereo)
CD players and in a few slot-loading players, but it won't play in a computer
or car CD player.
